

As concerned citizens of Lakewood, we face many issues that affect our way of life. As we have all witnessed, the town has expanded and is the fastest growing municipality in Ocean County. While expansion is generally viewed as a positive aspect, uncontrolled growth brings problems that negatively affect our lives in many ways.

SAG, Inc. has focused on creating a dialogue and working with the various committees within the township to insure that our way of life is preserved for not only the seniors, but for all citizens in the town. We have aligned with many groups that share our concerns and have worked diligently to make sure our combined voices are heard at various township meetings.

In some instances we have requested your attendance at meetings as a show of support and you have responded and we thank you. There are times that attendance and participation at meetings just isn't enough and we have to fight some battles with objections and legal advice. This can become costly, therefore we ask you to consider donating to help us keep Lakewood a pleasant and safe place to reside.

Our pledge to you is that the money will be used wisely and only when circumstances dictate that we have attempted to resolve any issue with dialogue, to no avail. I know that many of you have generously contributed and we thank you for answering the call and hope that others might follow your lead.

Please make your checks payable to SAG, Inc. Send
